

Quicklook is a unique and innovative solution that has captured the imagination of the global low vision community. Remarkably intuitive to use, simply flip the camera open and start reading price tags in a shop or a timetable in a station. Signing a cheque is ingeniously facilitated by simply flipping the camera into its writing position. If regular print is too small then Quicklook is here to help.

FUNCTIONS

Convenient and compact:

Lightweight robust handheld design with built in rechargeable battery

Display: High contrast, high brightness 4" display with four levels of brightness adjustment

Camera: Its patented, multi-function rotating camera activates the unit and uniquely provides reading and writing positions

Magnification: 6X to 2X

Modes: Full colour, enhanced positive and negative reading modes, and also a range of semi colours

Lighting: Normally on, the camera lights can be easily powered off when required to view backlit displays, such as a mobile phone

Operates in any orientation: can be used left or right-handed

Tonal feedback on all controls (user can silence)

All user **preferences** are automatically saved
