

The Eclipse reader is a one piece integrated design with a complete range of features. Compact and easy to move, no assembly or set up configuration is required! Full colour and continuous auto focus with semi-colours, line-markers and overview mode, the Eclipse is a powerful performer in the home, work, or educational environment.

FUNCTIONS

Modes: Full colour, enhanced positive and negative reading modes, and also a wide range of semi colours. A range of brightness, contrast and other display controls are also available.

Display: Integrated 15" High brightness, high contrast TFT display that is ergonomically positioned at optimum head height for comfortable reading.

Overview: Unique push button overview mode for locating reading content for magnification.

Continuous smooth **auto focus** mode

Adjustable **line markers and blanking** that facilitates easier reading and tracking of text.

Large **XY table** that accommodates full A4 viewing and more.

User preferences are stored at power-off and automatically restored when the unit is powered up.
