

The Eclipse Scholar reader is a one piece integrated design with a complete range of features including a top-mounted distance camera. Compact and easy to use, it can be used not only for reading and writing but also for viewing distant objects. Full colour and continuous autofocus with semi-colours, line-markers and overview mode, the Eclipse Scholar is a powerful performer in the home, work or educational environment.

FEATURES

Modes: full colour, enhanced positive and negative reading modes and a full range of semi-colours. Full control of brightness, contrast, etc. is provided.

Display: 15" TFT display, ergonomically positioned at optimum head height for comfortable reading.

Unique push-button **overview mode** for locating yourself in the viewing scene.

Line-markers and blanking to facilitate text tracking.

Distance camera with 10x optical zoom range, autofocus, mirror and freeze modes

Large X-Y table that accommodates full A4 viewing and more.

User preferences stored automatically at power off and restored at the next use.
